

**End hunger, achieve
food security and
improved nutrition
and promote
sustainable agriculture**

The University of World Economy and Diplomacy (UWED) aligns with Sustainable Development Goal 2 through its research, education, and policy-focused activities that address global food security, nutrition, and sustainable agricultural practices. UWED prepares students to understand the economic, political, and environmental factors that impact food security by integrating these topics into coursework, research projects, and international collaborations. Through partnerships with governmental and international organizations, UWED students and faculty engage in policy research that supports fair trade, food distribution, and sustainable agricultural initiatives. These activities cultivate a generation of leaders equipped to address global food challenges, promote food security policies, and advocate for sustainable development practices—contributing directly to the aims of SDG 2.

<p>TARGET 2-1</p>  <p>UNIVERSAL ACCESS TO SAFE AND NUTRITIOUS FOOD</p>	<p>TARGET 2-2</p>  <p>END ALL FORMS OF MALNUTRITION</p>	<p>TARGET 2-3</p>  <p>DOUBLE THE PRODUCTIVITY AND INCOMES OF SMALL-SCALE FOOD PRODUCERS</p>	<p>TARGET 2-4</p>  <p>SUSTAINABLE FOOD PRODUCTION AND RESILIENT AGRICULTURAL PRACTICES</p>
<p>TARGET 2-5</p>  <p>MAINTAIN THE GENETIC DIVERSITY IN FOOD PRODUCTION</p>	<p>TARGET 2-A</p>  <p>INVEST IN RURAL INFRASTRUCTURE, AGRICULTURAL RESEARCH, TECHNOLOGY AND GENE BANKS</p>	<p>TARGET 2-B</p>  <p>PREVENT AGRICULTURAL TRADE RESTRICTIONS, MARKET DISTORTIONS AND EXPORT SUBSIDIES</p>	<p>TARGET 2-C</p>  <p>ENSURE STABLE FOOD COMMODITY MARKETS AND TIMELY ACCESS TO INFORMATION</p>

NOURISHING FUTURES: PROMOTING HEALTHY EATING FOR ZERO HUNGER (SDG 2)

Ending hunger and ensuring food security are the most important challenges of the modern world, especially in the context of sustainable development and improving living conditions. The University of World Economy and Diplomacy (UWED) actively supports these initiatives by implementing programs and activities aimed at promoting healthy eating, maintaining student well-being, and raising awareness of the importance of sustainable nutrition.

GLOBAL CONFERENCES AND HEALTH INITIATIVES FOR ZERO HUNGER

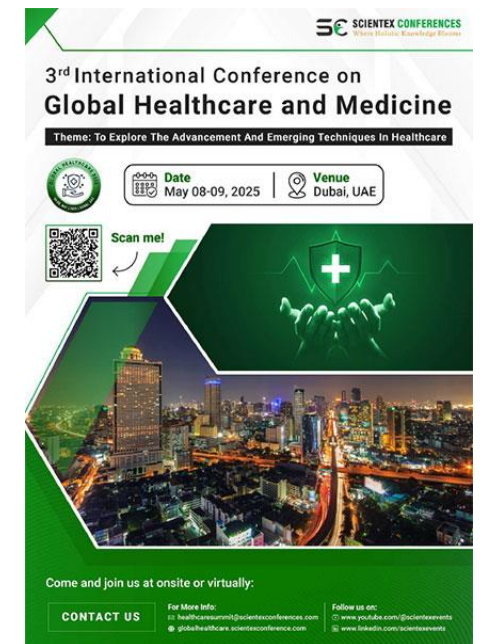

In 2023, UWED organized a number of events, including international conferences and health support projects, which contribute to the creation of an environment where students have access to information on proper nutrition and healthy lifestyles. The university also collaborates with international organizations and partner structures to strengthen its educational and social programs aimed at improving food security and health.

These initiatives help create the foundation for a future in which nutrition and health are priorities that contribute to the overall well-being of society. Introduction to the University's work in food security and healthy eating.

SUSTAINABLE DINING AND RETAIL: ADVANCING ZERO HUNGER

The University of World Economy and Diplomacy has cafeterias, buffets and shops on its campus offering a variety of menus and food products at affordable prices for students. This ensures that all students have the opportunity to purchase balanced meals throughout the day, which helps maintain health and well-being. The wide range of food and products allows students to choose dishes according to their preferences and dietary needs, creating conditions for proper and nutritious nutrition.

SUSTAINABLE DINING: ADVANCING ZERO HUNGER

At UWED, every holiday is accompanied by warm and heartfelt events, during which festive tables are laid for students. These events create an atmosphere of unity and support, allowing students to feel the care and involvement of the university in their well-being. Festive treats include a variety of dishes and delicacies, which emphasizes the university's commitment to the traditions of hospitality and the creation of a comfortable environment. Such initiatives help to strengthen the sense of community among students, supporting their morale and promoting social integration.

SUSTAINABLE DINING: ADVANCING ZERO HUNGER

EVENTS AND PROJECTS IN 2023 FOR ENSURING FOOD SECURITY

A ROUNDTABLE DISCUSSION ON THE TOPIC “UZBEKISTAN’S WTO MEMBERSHIP: SPECIAL AND PREFERENTIAL REGIME IN AGRICULTURE”

On November 30, 2023, UWED hosted a round table on "Uzbekistan's accession to the WTO: special and preferential regime in agriculture". The benefits and challenges for Uzbekistan's agricultural sector in connection with WTO accession were discussed, including market access and policy changes. Particular attention was paid to the opportunities provided by preferential regimes for sustainable agricultural development, which can contribute to the country's food security.

EVENTS AND PROJECTS IN 2023 FOR ENSURING FOOD SECURITY

On September 11, 2023, UWED hosted the international conference "[Uzbekistan's Path to WTO Accession](#)". The event was aimed at discussing regulatory reforms, economic benefits and challenges for agriculture and industry upon accession to the WTO. Particular attention was paid to market access and the impact on the agricultural sector, which is potentially related to improving food security.

On September 4, 2023, UWED hosted an international conference on the sustainable development of Central Asia. The event discussed key challenges in the region, such as water supply, climate change and food security. Participants emphasized the importance of interstate cooperation to ensure economic and social progress. The conference focused on the need for sustainable resource management **and** improving living standards.

INNOVATIVE RESEARCH FOR SUSTAINABLE FOOD SECURITY

SCIENCE FOR WORK

Research paper 1.

Akabirxodjayeva Dilfuza Rustamova

The article *«Rivojlanayotgan davlatlarda oziq-ovqat muammosi»* analyzes the problem of food security in developing countries. It examines key factors affecting food availability, including economic constraints, climatic conditions and inadequate agricultural infrastructure. The work emphasizes the importance of implementing sustainable agricultural practices and effective policies to improve access to food. The main findings highlight the need for international cooperation and development of strategies to address hunger.

DOCTORAL RESEARCH ADVANCING ZERO HUNGER SOLUTIONS

The dissertation on *"Mechanisms of Improving the Production and Export of Fruit and Vegetables in Uzbekistan Corresponding to the World Market Requirements"* connected to Sustainable Development Goal 2 (SDG 2), which aims to end hunger, achieve food security, improve nutrition, and promote sustainable agriculture is defended by the senior teacher of the "International economics" department on 31 May, 2023. By exploring strategies to enhance the production and export of fruit and vegetables, the research addresses key aspects of agricultural productivity and sustainability. This focus on aligning Uzbekistan's agricultural practices with world market standards can help ensure that local farmers adopt efficient, sustainable methods that yield higher-quality produce. As a result, these improvements could reduce food insecurity by increasing the availability of nutritious food both domestically and internationally. Additionally, strengthening export capabilities supports the economic stability of rural communities, which can, in turn, contribute to more resilient food systems and help lift people out of poverty, furthering the goal of ending hunger and promoting sustainable food production.

DOCTORAL RESEARCH ADVANCING ZERO HUNGER SOLUTIONS

On September 14, 2023, Moiliyev Elyor Bakhtiyorovich, on the topic "*IMPACT OF UZBEKISTAN'S MEMBERSHIP IN THE WTO ON THE AGRICULTURAL SECTOR*" 08.00.09 - took place the department discussion of the dissertation work prepared for receiving the PhD degree in the specialty "World Economy".

The dissertation topic, "*Impact of Uzbekistan's Membership in the WTO on the Agricultural Sector*" has significant relevance to Sustainable Development Goal 2 (SDG 2), which focuses on ending hunger, achieving food security, improving nutrition, and promoting sustainable agriculture. By examining Uzbekistan's potential WTO membership effects on agriculture, this research provides insights into how international trade policies could shape food security and agricultural sustainability in the country. WTO membership could open Uzbek agricultural markets to global competition, encouraging local farmers to adopt more efficient, sustainable, and competitive farming practices. This integration into the global economy has the potential to enhance the productivity of the agricultural sector, improve the quality and variety of available food, and increase farmers' incomes by expanding export opportunities. Furthermore, access to international agricultural standards and technologies could promote sustainable farming practices, helping to ensure that Uzbekistan's agricultural development aligns with both environmental sustainability and food security goals. Ultimately, this dissertation addresses how WTO membership can support the modernization of Uzbekistan's agricultural sector, contributing directly to the targets of SDG 2 by fostering a resilient, productive, and sustainable food system.

DOCTORAL RESEARCH ADVANCING ZERO HUNGER SOLUTIONS

The implementation actions taken by various government and non-government organizations in Uzbekistan to support the research on "*Impact of Uzbekistan's Membership in the WTO on the Agricultural Sector*" are directly linked to achieving Sustainable Development Goal 2 (SDG 2) targets, which focus on ending hunger, achieving food security, improving nutrition, and promoting sustainable agriculture. Government bodies such as the Ministry of Agriculture and the Ministry of Investment and Foreign Trade can introduce policies aligned with WTO standards, such as providing subsidies for smallholder farmers, promoting access to international markets, and ensuring compliance with quality and safety standards. These actions help increase productivity, reduce food insecurity, and make nutritious food more accessible and affordable for the population. By implementing these supportive actions, both government and NGO initiatives help Uzbekistan's agricultural sector grow in a sustainable way that aligns with WTO standards, contributing to SDG 2's targets of resilient food production, improved livelihoods for farmers, and a secure food supply for future generations.

POLICY ACTIONS FOR ACHIEVING ZERO HUNGER

Jahon iqtisodiyoti va diplomatiya universiteti tayanch doktoranti Moyliyev Elyor Baxtiyorovichning "O'zbekistonni JSTga a'zo bo'lishining agrar sektoriga ta'siri" mavzusidagi iqtisod fanlari bo'yicha falsafa doktori (PhD) ilmiy darajasini olish uchun tayyorlagan dissertatsiya ishi natijalaridan amaliyotda foydalanilganligi to'g'risida

MA'LUMOTNOMA

"WTO Chairs Program in Uzbekistan" loyihasi Jahon iqtisodiyoti va diplomatiya universiteti tayanch doktoranti Moyliyev Elyor Baxtiyorovichning "O'zbekistonni JSTga a'zo bo'lishining agrar sektoriga ta'siri" mavzusidagi iqtisod fanlari bo'yicha falsafa doktori (PhD) ilmiy darajasini olish uchun tayyorlangan dissertatsiya ishi natijalaridan amaliyotda foydalanilganligi to'g'risida quyidagilarni ma'lum qiladi:

Tadqiqotchining "O'zbekistonni JSTga a'zo bo'lishining agrar sektoriga ta'siri" mavzusidagi 08.00.09 – "Jahon iqtisodiyoti" ixtisosligi iqtisod fanlari bo'yicha falsafa doktori (PhD) ilmiy darajasini olish uchun tayyorlangan dissertatsiya ishi natijalaridan, ilmiy xulosa, tavsiya va takliflaridan "WTO Chairs Program in Uzbekistan" loyihasi faoliyatida belgilangan vazifalarni amalga oshirishda foydalanilgan.

Xususan, dissertatsiya ishining birinchi ilmiy yangiligidan, ya'ni JSTning qishloq xo'jaligi mahsulotlari xalqaro savdosini tartibga solish qoidalarini o'rganish natijalaridan Qishloq xo'jaligi vazirligiga JSTga a'zo bo'lish jarayonida takliflar berishda foydalanilgan.

Dissertatsiya ishining beshinchi ilmiy yangiligidan, ya'ni O'zbekistonning rivojlanayotgan mamlakat statusi bilan tashkilotga a'zo bo'lishi uning argumentlaridan O'zbekiston Respublikasi Prezidentining 2023-yil 28-fevraldagi "2022 – 2026-yillarga mo'ljallangan Yangi O'zbekistonning taraqqiyot strategiyasini "Insonga e'tibor va sifatlil ta'lim yili" da amalga oshirishga oid davlat dasturi to'g'risida"gi PF-27-sonli Farmoniga ilovada keltirilgan davlat dasturining 97-maqсадida belgilangan chora-tadbirlarni amalga oshirishda, ya'ni JSTga a'zo mamlakatlari bilan muzokaralar o'tkazish jarayoni uchun Qishloq xo'jaligi vazirligiga takliflar tayyorlashda foydalanilgan.

Dissertantning taklifi asosida Qishloq xo'jaligi vazirligi hamda Jahon iqtisodiyoti va diplomatiya universiteti o'rtasida memorandum loyihasi rasmiylashtirish uchun tayyorlandi. Mazkur memorandum doirasida Jahon iqtisodiyoti va diplomatiya universitetining malakali mutaxassislari JSTga

2023-yil 13-noyabr

Jahon iqtisodiyoti va diplomatiya universiteti tayanch doktoranti Moyliyev Elyor Baxtiyorovichning "O'zbekistonni Jahon Savdo Tashkilotiga (JST) a'zo bo'lishining agrar sektoriga ta'siri" mavzusidagi iqtisod fanlari bo'yicha falsafa doktori (PhD) ilmiy darajasini olish uchun tayyorlangan dissertatsiya ishi natijalaridan amaliyotda foydalanilganligi to'g'risida

MA'LUMOTNOMA

O'zbekiston Respublikasi Prezidenti Administratsiyasi huzuridagi Iqtisodiy tadqiqotlar va islohotlar markazi Jahon iqtisodiyoti va diplomatiya universiteti tayanch doktoranti Moyliyev Elyor Baxtiyorovichning "O'zbekistonni JSTga a'zo bo'lishining agrar sektoriga ta'siri" mavzusidagi 08.00.09 – "Jahon iqtisodiyoti" ixtisosligi iqtisod fanlari bo'yicha falsafa doktori (PhD) ilmiy darajasini olish uchun tayyorlangan dissertatsiya ishi natijalaridan amaliyotda foydalanilganligi to'g'risida quyidagilarni ma'lum qiladi:

Tayanch doktorant Moyliyev Elyorning tadqiqot ishida O'zbekistonning Jahon Savdo Tashkilotiga a'zo bo'lishining mamlakat agrar sektoriga ta'siri, a'zolik jarayonida mamlakat qonunchiligida o'zgartirilishi lozim jihatlari, tarmoqda mavjud muammolar va ularga amaliy yechimlar keltirib o'tilgan. Tadqiqotning ilmiy yangiliklari quyidagilardan iborat:

JSTning qishloq xo'jaligi mahsulotlari xalqaro savdosini tartibga solish qoidalarini o'rganilgan hamda ushbu o'rganish natijasida mamlakat qishloq xo'jaligi uchun kerakli tavsiyalar ishlab chiqilgan;

O'zbekiston qishloq xo'jaligi mahsulot yetishtirish samaradorligi hamda qishloq xo'jaligida band ishchilarning o'rtacha unumdorligi Filippin, Isroil, Niderlandiya, Turkiya, Braziliya bilan qiyosiy taqqoslangan;

O'zbekistonning JSTga a'zo bo'lishining uning qishloq xo'jaligiga ta'siri TRIST modeli yordamida modellashtirilgan hamda asosiy qishloq xo'jaligi mahsulotlari uchun o'rtacha o'rnatilgan oddiy tarif 8,9 % ni, o'rtacha undirilgan oddiy tarif 0,6 % bo'lgani aniqlangan. Shu asosda JSTga a'zolik jarayonida qishloq xo'jaligi mahsulotlari import tariflari o'rnatish uchun amaliy takliflar ishlab chiqilgan;

O'zbekistonning qishloq xo'jaligini ikki qo'llab-quvvatlash xarajatlari "Yashil quti", "Rivojlanish dasturi" hamda "Amber quti" qo'llab-quvvatlash guruhlariga ajratib chiqilgan. Mazkur ajratish asosida qaysi bir qo'llab-quvvatlash turini kamaytirish, qaysi birini ko'paytirish bo'yicha amaliy takliflar ishlab chiqilgan;

MDH mamlakatlari rivojlangan yoki rivojlanayotgan mamlakat statusi bilan kirgan mamlakatlar guruhiga ajratilgan bo'lib, mazkur guruhlash asosida O'zbekistonning rivojlanayotgan mamlakat statusi bilan tashkilotga a'zo bo'lishi uning imkoniyatlarini oshirishi hamda rivojlanayotgan mamlakat statusini olish uchun argumentlar aniqlangan.

Zero Hunger

In 2023, the University of World Economy and Diplomacy (UWED) played a significant role in supporting and promoting initiatives related to food security and sustainable development. Holding international conferences and round tables aimed at discussing water supply, climate change and agricultural policy confirmed the university's commitment to creating conditions for improving food security. These events not only contributed to the development of cooperation at the international level, but also emphasized the importance of joint efforts to achieve SDG 2.
